RE: Appointment Openings November 6th - 10th

Greetings,

Ear Associates & Rehabilitation Services is pleased to announce that during the month of November we will be demonstrating the most advanced products in the digital hearing health care industry to date. In fact, we will be one of the first practices in the area to display the new Widex BEYOND™ hearing technology!

Our trained audiologists will be on hand for a special 1-week event, November 6-10 (Monday - Friday). During this special week-long event, we will be offering the following services **FREE OF CHARGE**:

- Complimentary hearing consultation.
- Review of medical and hearing history.
- Thorough otoscopic examination. You may just have wax in the ear!
- Demonstration of the new Widex BEYOND™ technology that optimizes sound based on your environment, creating the most ideal listening conditions for you no matter where you are.
- Review and demonstrate the latest treatment options for ringing/noises in the ear.

Hearing involves more than just your ears. When you are experiencing a hearing impairment, your brain must work harder to fill in the missing pieces. This can negatively impact your emotional well-being, leading to isolation and depression.

That's why it makes sense to take care of your hearing health the same way you care about the rest of your health: there's a lot more riding on it than just your hearing.

Please RSVP by calling **(408) 703-5065**. Appointments are limited and remember there is no cost for these services during this special event.

Sincerely,

Sarika Patil, Au.D.

Brianne Salzmänn, Au.D.

Liezel Caliva, H.A.S.
